

**Fundamentals of theoretical physics [Text] : a tutorial for high school students / E. F. Venger, V. M. Gryban, O. V. Melnichuk ; transl. from Ukr. by O. I. Voitenko ; Nat. acad. of sciences of Ukraine. – Kyiv : Akadempriodyka, 2016. – X, 481 p.**

In the brief course of theoretical physics, the concepts, formulations, and laws of classical electrodynamics, relativity theory, thermodynamics, and statistical physics are expounded.

The course is intended for high school students.
